People First

We believe that it takes more than technology and audiology to create the best hearing instruments. That's why we put the individual needs and wishes of people with hearing loss first in our development of new hearing care solutions.

The ultimate mid-market wireless solution for modern hearing care

MORE Vigo

MORE Good Reasons

The winning combination of sensational sound, high-end performance, wide range of styles and value for money has established Vigo as a firm favorite with fitters and users throughout the world. Now, with added wireless functionality and superior user benefits, Vigo Connect offers you and your customers even more good reasons to choose Oticon as your preferred mid-market partner.

MORE Modern Hearing Care

Through Vigo Connect's wireless connectivity your patients can enjoy life with more satisfaction and ease. Vigo Connect goes beyond conventional hearing care and advanced hearing aids, taking your customers into a new world of wireless freedom and personal communication - placing your clients at the heart of modern everyday life with the most modern hearing care.

Vigo Connect, the ultimate mid-market wireless instrument for modern hearing care.

Connected

MORE Sensational Sound

Vigo Connects advanced RISE platform, 8 kHz of bandwidth and ultra fast signal processing delivers natural high-end sound quality and speech intelligibility in any situation.

MORE Connected

Vigo Connect's wireless connectivity allows your clients to speak on the telephone, watch films and listen to music just like everyone else.

MORE Simplicity

Vigo Connect offers segment leading automatics, and a remote control option with one-touch media switching.

MORE Possibilities

Vigo Connect offers more choice. Wireless Connectivity, full product range including custom, RITE, 312 and 13 BTE styles, discreet power RITE and BTE and even 10 elegant colours. There is a Vigo for everyone.

MORE Vigo

MORE Entertainment, Information & Communication

Once set up, ConnectLine TV, landline and mobile units communicate automatically with Vigo Connect instruments as soon as they are within range.

MORE
Connected

The new Vigo Connect family is here to transform the life and listening experience of your customers. Even the best hearing instruments on their own cannot solve all of the challenges faced by users living an active and dynamic life. In combination with ConnectLine, users wearing Vigo Connect will be able to directly access the complete array of everyday communication and entertainment devices, without hassle or disturbing those around them.

The audio from phones, televisions, stereos, PC's and MP3 players instantly becomes accessible and alive using the elegant and small Oticon Streamer and the rest of the Oticon ConnectLine system. Your customers simply connect at the touch of a button and seamlessly switch from one device to another. They can savour the subtle nuances in music. Enjoy film dialogue without sound delay and at a 'family friendly' volume. Hear the phone ring while watching TV, answer it on the spot – and then have an effortless, hands free conversation.

Combined with the ConnectLine system Vigo Connect adds a new dimension to modern hearing care in the mid-market.

MORE Vigo
MORE Life 

Life is all around you and often moves at a frantic pace. So give your clients the chance to take part in every aspect of it. Even when it's fast and dynamic - or a moment so special or intense that it can't be recreated. Connecting with the world is everything.

MORE
Connected 

The Oticon Streamer connects wirelessly via bluetooth to almost any mobile phone, giving users the freedom to communicate on the move.

A clinical test, which compares watching TV with hearing aids alone or combined with ConnectLine, reveals an increase in speech intelligibility from 36% to 81%.

Improving TV Listening for Hearing Aid Users (2009)

MORE

Sensational Sound

MORE Performance

Vigo Connect's superior sound quality is based on superior technology. The combination of the advanced RISE platform, 8 kHz of bandwidth and ultra fast signal processing provides users with a rich and natural hearing experience with more high frequency speech cues that is best in class. Add to this the ability to directly, and wirelessly connect to the majority of communication and entertainment devices allows your clients to live a modern life with less restrictions.

MORE Intelligence

Powerful performance is nothing without control and that's exactly what Vigo Connect's Decision Maker 2 (DM2) delivers. DM2 seamlessly and constantly adjusts the settings of the advanced high-end features to automatically ensure the optimum speech-in-noise performance, giving users confidence and putting them back in control no matter how demanding the situation.

MORE Natural

Natural, in control and confident is how your customers want to feel and that's exactly what Vigo Connect is all about. The modern and ultra discreet RITE and RITE Power styles provide a smooth and natural hearing experience that increases comfort, speech intelligibility and fights hearing fatigue. Connectivity keeps users in the 'game' and they can enjoy TV watching and phone conversations as naturally as people without a hearing loss - without the hassle of adjusting the volume and disturbing those around them. This helps Vigo Connect users live a more relaxed, social life with more confidence and feeling of security.

At the heart of Vigo Connect is the advanced, ultra fast RISE platform enabling incomparable sound quality and wireless connectivity taking hearing care and hearing systems to a new level.

MORE

Simplicity

The Oticon Streamer also works as a remote control for Vigo Connect to adjust volume and switch programmes.

MORE Connected

➤ MORE Straightforward to Fit

The Genie software guides you through the precise fitting process and includes simulations and visual explanations of features. Vigo Connect's Automatic Adaptation Manager and Volume Control Learning makes patient adaptation faster and reduces the need for further fine tuning consultations. The final result is less time spent on fitting and follow-ups and more possibilities for you to focus on counseling and customer care.

➤ MORE Straightforward to Use

Vigo Connect and ConnectLine are made for each other both being specifically designed to be intuitive and easy to use. Automatically ensuring sound optimization and speech intelligibility as users move through changing environments. ConnectLine's plug and play system connects with any paired device and switching between remote audio outputs only requires the push of a single button.

Customers no longer have to constantly and conspicuously tweak and adjust instruments – they can just enjoy life and their new hearing experience while Vigo Connect does the work for them.

More Individual Choice

Vigo Connect was created with the needs and wishes of real people in mind and that's why there is so much to choose from. More high-end features, more sensational sound, more automatics, more vital power, more discreet styles – and a whole new way of connecting with modern everyday life.

- Fitting range up to 110dB HL
- The slim and elegant RITE style offers exceptional comfort, discreetness and sound quality
- The RITE Power style gives additional power to those users that need that little extra without compromising on discreetness and style
- World's smallest Power BTE on a 13 battery
- A full range of custom instruments including ITE, ITC, MIC and CIC
- Ultra slim traditional hook BTE's in both a 312 and 13 style for up to 220 hours of battery life

The possibilities have never been greater or more individual – the ultimate combination of near-invisible design, performance, ease, value for money and even 10 different colours to choose from. There is a Vigo Connect for everyone.
